WHO AM I?

Avid learner with an imperative for challenging tasks. Open to responsibilities. Adaptable to various work environments.

EXPERIENCE

- 7/2021 – Present **Backend developer / Team lead** Applifting
Java / Kotlin / Spring / ELK / Kafka
- 2/2020 – 6/2021 **Backend developer** ČSOB via Neon IT
Joined ČSOB as an external employee via NeonIT. I was a member of the development team on several projects.
- CIM (Client Identity Management)**
Internal system used by the majority of ČSOB applications. Manages clients personal data, their accounts' information, available authorization methods, signed documents etc.
- BankID**
Access to Citizen Portal via ČSOB identity.
- CAT (Credits Approvals Transactions)**
Management of cards' limits, account access authorization etc. This project was written purely in Kotlin.
- Java / Kotlin / Spring / OracleSQL / RabbitMQ / Kafka
- 2/2017 – 1/2020 **Full stack Java developer** Omax Holding
Started at Omax as a member of the development team on NaseStravenka. Later was assigned to manage the development of a CRM subsystem. I had to meet with the client and was responsible for requirements collection. Closer to the final stage of the project I started learning .NET and was assigned to ProductAds project.
- NaseStravenka (Lidl)**
Project consisted of multiple systems: REST API, web for clients, internal portal for employees, CMS etc. At the later stage I was assigned to develop CRM subsystem for the portal.
Java / Spring / Hibernate / Oracle SQL / Knockout.js / Thymeleaf
- ProductAds (Heureka)**
ProductAds is a system for ads auctions and management on Heureka (CZ/SK/HU). My main task was to set up dockerized ELK stack for monitoring and to learn .NET as I go.
.NET / MongoDB / MySQL / Docker / ELK / Prometheus / Grafana

EDUCATION

2019 – 2021

Bachelor's Degree

CTU In Prague, FEL

Graduated. My bachelor's thesis was a web application for personal development written in Kotlin with Spring on backend and React.js with Material UI on frontend.

2016 – 2018

Bachelor's Degree

CTU In Prague, FEL

I had to terminate studies on my 3rd year due to career opportunity. At CTU I had the opportunity to learn C++ which deepened my overall knowledge of CS.

LANGUAGES

Russian - native

Czech - advanced

English - advanced

HOBBIES

These are just few of my many hobbies. I enjoy cooking, especially baking. I am passionate about music and I play several musical instruments.
